

THE PHOENIX SMARTBOX SERIES is a range of intelligent key management safes; designed to provide a powerful and flexible key management system that is incredibly simple to use. Each box can hold from 14 up to 280 keys, and the system can be scaled to manage up to 28,000 keys using one solution.

- **LOCKING** – The Smartbox range offers a variety of locking methods including RFID cards and fobs, biometric scanner, pin codes or a breathalyser module. The system has a simple user management system that allows you to grant or remove permissions for individuals, meaning you're always in control of who can access the box.
- **SECURITY** – When bolted to a wall the Smartbox system provides defence against burglaries. Administrators will be automatically alerted of unauthorised access to keys, or keys not being returned within agreed timeframes. The optional hold system can physically lock each key in place, each of which can be released by the system only by users who have been granted access.
- **KEY SECURITY OPTIONS – (KEY RETAINING)** – Keys are held in place in the cabinet until the correct details are entered into the keypad (Code, RFID, biometric or alcohol tester).
- **(KEY RELEASE)** – Keys are not held locked in the cabinet. Once opened with appropriate code, a key can be removed. However, if a person were to remove an unauthorised key, an alarm will sound and the database will flag up an erroneous action.
- **FIXING** – All smartboxes are prepared for wall fixing. The units can also be purchased with optional plinths, which are strongly recommended to support the weight of the larger units and can be mounted to the floor to provide additional security.
- **CONNECTIVITY** – The Smartbox is mains operated and has an inbuilt UPS battery that will run for three hours in the event of power failure. The system can be managed by a PC or server on a network and can be connected via a WiFi hotspot.
- **FINISH** – Finished in a high quality scratch resistant RAL white paint.

MODEL NUMBER	EXTERNAL DIMENSIONS H x W x D	WEIGHT CAPACITY / STRIPS HOOKS		
KS0111EU*/EL**	400 x 610 x 300mm	46	56	4
